Optimize your JES2 management

Equipped for Productivity on all levels:

- ➔ End users can conveniently browse and manage their jobs
- ➔ Operators can manage all JES2 devices
- ➔ Developers can test as well as manage all JES2 devices
- ➔ Operations Managers can completely manage all JES2 resources
- ➔ Development Managers can monitor operations

Whether for TSO or CICS, IOF enhances productivity through functionality

On your side, for over 30 years, the standard in JES 2 Management for Fortune 500 corporations

NEW: IOF R8G with Online Help

- ➔ **Compatibility features to help users of other products make a smooth transition to using IOF.**
- ➔ Email notifications, job summary, or selected reports

IOF User: "For my part, I like everything about IOF. It's a great package and I'd hate to be without it."

The only JES2 Management solution you'll ever need.

Be more. Do more!
